

Creating UI to interact with application

The login form is displayed within a white modal box centered on a teal background. The background features a repeating pattern of light gray circles, each containing a dark gray laptop icon with a white user silhouette on its screen. The modal box has a light gray border and a white background. On the left side of the modal, there is a square teal icon with a white clipboard and pencil. The title "Login" is centered at the top of the modal in a black serif font. Below the title, there are two input fields: the first is a light gray rounded rectangle containing an email address, and the second is a light blue rounded rectangle containing a password. Below the password field is a link labeled "Forgot password?". A blue rounded rectangle with the word "SUBMIT" in white capital letters is positioned below the link. At the bottom of the modal, there is a link labeled "You Don't have an Account".
